Results-driven **Full-Stack Developer with 5+ years of experience** building production-grade SaaS applications using **React, Next.js, NestJS, TypeScript, PostgreSQL, and AWS**. End-to-end ownership across frontend dashboards, REST APIs, cloud infrastructure, and desktop agents. Recognized as **Employee of the Quarter (Q1 2025)** and **Top Performer — Rockstar Rookie (2024)** at Bacancy Technology.

PROFESSIONAL EXPERIENCE

Full-Stack Developer — DeskQ

Mar 2026 – Present

Bacancy Technology · Ahmedabad, India

- Architected end-to-end **DeskQ SaaS platform** (deskq.bacancy.com) — real-time workforce monitoring with Next.js, NestJS, PostgreSQL & AWS.
- Built real-time dashboard with session tracking, idle/work time analytics, and automated screen-capture pipeline.
- Integrated **Claude AI** for intelligent productivity analysis; designed **RBAC** system with granular permissions.
- Shipped cross-platform desktop agent (macOS / Windows / Linux) and project-hour allocation with productivity scoring.

Next.js · NestJS · PostgreSQL · AWS · shadcn/ui · Claude AI · TypeScript

Software Engineer — Frontend

Aug 2023 – Feb 2026

Bacancy Technology · Ahmedabad, India

- Served as dedicated frontend developer on **GetGround** (UK fintech) — contributed across multiple squads from feature planning to production release.
- Maintained & enhanced dual **React + Angular** legacy apps for a global agricultural management platform.
- Designed reusable project structure reducing onboarding time by **40%** ; implemented i18n for 5+ locales.
- Led React training sessions for 6 developers; provided sprint estimations improving on-time delivery rate.

React · Angular · TypeScript · Redux · i18n

Software Engineer — Frontend

May 2021 – Jul 2023

WebMobTech Solutions Pvt. Ltd. · Ahmedabad, India

- Led frontend for **Pro-Watch Security Suite** — enterprise CCTV & access-control platform; integrated ML models via Redux Saga.
- Built reusable React component library for **Intertec Healthcare** portal handling complex multi-step forms with thousands of data points and full localization.
- Architected **SoftaCheck** — unified code-review platform integrating GitHub API, C/C++ static analysis, and Doxygen documentation.
- Designed scalable architectural frameworks ensuring cross-browser performance; coordinated sprints and mentored 4 junior developers.

React · Redux Saga · Ant Design · Forge UI · REST API · GitHub API

Software Engineer Intern

Dec 2020 – Apr 2021

WebMobTech Solutions Pvt. Ltd. · Ahmedabad, India

- Achieved **99% reduction in data errors** via client-side validation on multi-stage forms; built responsive React UIs.

KEY PROJECTS

GetGround — UK Real-Estate Investment Platform

getground.co.uk ↗

Frontend Developer · Bacancy Technology (client: GetGround, UK) · 2023 – 2026

UK-based fintech platform enabling individuals to invest in property through limited companies. Worked across multiple product squads — from feature scoping and design reviews to production deployments — building React features, optimizing bundle performance, implementing new user flows, and maintaining a large-scale TypeScript codebase serving thousands of UK investors.

React · Next.js · TypeScript · Redux · REST API · Fintech

DeskQ — AI-Powered Workforce Monitor

deskq.bacancy.com ↗

Full-Stack Developer · Bacancy Technology · Mar 2026 – Present

End-to-end SaaS platform for real-time employee activity monitoring. Built Next.js dashboard, NestJS REST API, PostgreSQL schema, AWS infrastructure, and cross-platform desktop agent. Integrated Claude AI for intelligent productivity insights, RBAC permissions, activity heatmaps, and automated screen-capture pipeline.

Next.js · NestJS · PostgreSQL · AWS · Claude AI · TypeScript

Pro-Watch Integrated Security Suite

Frontend Developer · WebMobTech Solutions · 2022 – 2023

Enterprise-grade CCTV & access-control platform for large facilities. Built licensing upgrade/downgrade flows, camera analytics dashboard, ML model integrations via Redux Saga, and conducted API optimizations that improved data throughput for high-volume security feeds.

React · Redux Saga · Forge UI · ML Integration · REST API
